

Benjamin Menetrier

Birth date: 14/05/1987, French national.
Mail: Vattengatan 11, 60220 Norrköping, Sweden.
Tel.: +33 7 77 04 32 19 / +47 477 88 241
E-mail: benjamin.menetrier@posteo.net
Website: benjaminmenetrier.github.io

Positions

- **May 2023 - present:** Researcher at the Norwegian Meteorological Institute (Oslo, Norway).
- **October 2018 - April 2023:** Research scientist at IRIT (Toulouse), subcontracting for the JCSDA (Boulder, CO). Main developer of the SABER library in the JEDI project.
- **April 2016 - September 2018:** Research scientist at CNRM (Toulouse).
- **October 2015 - March 2016:** Research engineer at CERFACS (Toulouse).
- **Septembre 2014 - September 2015:** Project Scientist I at NCAR (Boulder, CO).

Education

- **2011-2014:** PhD at CNRM (Toulouse): "Using ensemble data assimilation for the modelling of flow-dependent background error covariances at convective scale", Léopold Escande award 2014.
- **2011:** ENS (Paris) graduation, geosciences specialty.
- **2010:** Master "Ocean, Atmosphere, Climate and Remote Sensing" at UPMC (Paris).

Skills

- Language: fluent English, French mother tongue, beginner in Swedish.
- Scientific computing expertise with Fortran (15+ years), C++ and Python (10+ years).
- Developer in large, complex and distributed-memory codes of data assimilation for operational weather forecasting (IFS/ARPEGE-AROME, WRF-DA, GSI, NEMOVAR, OOPS, JEDI framework).
- International collaborative code development with high-quality standards, using git, issue tracking, code reviews, automated testing.
- Experienced Linux user, strong experience as a HPC user on many different platforms.

Teaching

- **2016 - 2025:** training about ensemble-variational methods for data assimilation at CERFACS (Toulouse).
- **2024:** lecture and practical training for developers on the OOPS system (ACCORD consortium).
- **2019 - 2023:** lectures and practical training for the "JEDI academies" organised by the JCSDA.

Bibliometry and conferences

- Author of 20 published papers in international peer-reviewed journals.
- Cited 448 times, H-index 12 [Web of Science, 19/05/2026].
- ORCID account: 0000-0002-2593-3398 / Web of Science account: ABG-7190-2021

Selected recent papers
